## GOLD DUST.

"Housework is hard work without Gold Dust"

## WASHING WOOLEN BLANKETS

The theory now is, that blankets must be washed instead of dry-cleaned to be healthy. To have your blankets as soft as new, make a soapy suds in half a tub of warm water by using one-half cup of

## Gold Dust Washing Powder

and soak a blanket in it for half an hour; then simply move it around and rub the soiled spots; rise in warm water of the same temperature as the one in which you wash it, hang up in a warm place or sunny outdoor air and see what a soft, white blanket you will have.

## THE TROTTER RECORD.

Walter O. Palmer, the Nashville horseman, has cleared \$30,000 on miles during the past year.

Maud S. 2:08 1/2, is now 26 years old, as fitly as a colt and has not lost a harness on in four years.

It is said that Palo Alto Chimes, pacing record 2:17 1/2, by Chimes, will be out as a trotter next summer.

It is said that the American bred stallion Island L. 2:16 1/2, by Lockhart, has been successfully "trung" on the Russian tracks.

G. Lapham is working a green pacer by Phil Prince, out of a Steinhay mare, that is looked already for a mark of 2:15 this year.

The dam of Endow, 2:14 1/2, the champion 2-year-old trotting gelding, is Ben Mot, by Erin. She is 16 1/2 hands high and was never trained for speed.

There is a 2-year-old filly up in Oregon that is by Pathmont, out of a mare that traces to Direct, 2:05 1/2, and is said to be one of the coming fast ones to a certainty.

Thomas Grady is giving Maxine, 2:09 1/2, some work every fine day. She is looking well, and, as she is sound and fast, a great deal may be expected of her this year.

Barney Demarest has leased the track at Morrisstown, N. J., for a term of three years. Two meetings will be given during the coming season, and matinee races will be held every Saturday.

There is no other such tip and tuck record in the history of the turf as the performances of Jean R. Gentry, 2:09 1/2, and Joe Patchen, 2:04 1/2, against each other. They have met 26 times, and each has beaten the other 13 times. This includes the four last seasons.

## THE GLASS OF FASHION.

Lace effects in hosiery will be very popular for summer wear.

Pretty combinations of silk braid and narrow lace are seen among the new trimmings.

Valenciennes lace is to be very popular this season for trimming the thin summer gowns.

Belt buckles covered with suede in its natural color and ornamented with steel, jet or turquoise are one of the novelties.

Chiffon toques, combined with a fancy straw braid sewed on like ribbon with spaces between the rows, are displayed in all colors.

A freak of fancy or fashion, as the case may be, is hand painted flowers on gauze, silk and suede, all of which are used for trimming gowns and hats as well.

The new pulley belt, made of ribbon in all colors, stiffened with feather-bone, is one of the season's novelties. They shape into giraffe form at the back and narrow ends, carried through a ring at either side, tie in a small bow in front.

Nothing else in fashion is quite so effective for renovating an old bodice as the wide velvet corset belt and a cravat which may be of velvet or lace. Fasten the belt at one side with handsome buttons or with a knot and fringed ends, as you fancy.

Among the new trimmings is a silk netting about four inches wide which has one scalloped edge finished with a narrow silk fringe, and midway between this and the upper edge is another row of the same fringe following the same outline. This comes in colors as well as black.—New York Sun.

## ORCHARD AND GARDEN.

Never plant a tree unless you are willing to take care of it.

Prune annually, and the cutting off of large limbs will be unnecessary.

There is no use in planting out an orchard unless the ground is well prepared.

It is best to plant out young trees not more than 2 years old rather than older ones.

One advantage with apples is that the market for them is not local, and they can be held for an indefinite period for good prices.

The cause of moss appearing on the stems of apple and other fruit trees is wet, cold, undrained land or a very humid climate.

Cut all apple and other limbs close in pruning. Such wounds heal sooner and make the healthiest trees. Long knots left in pruning are unsightly and injurious.

So far as the growth of the tree will admit, plant deep. By deep planting the roots will get more moisture and will be firmer in the soil and will not so readily blow over.

## THE OYSTER SEASON.

The oyster in his bed of ooze. Waked with a start from his summer snooze. Opened his shell, and said, with a yawn: "I fear that our season of safety is gone. For my pleasant dreams were disturbed by the jar."

That is always caused by the letter R. And I know by the keel of that hideous sloop.

That some of us shortly will be in the soup? And so they will for the sloop was filled with the fastest and fattest.

This sloop was sent out by Nick Apostle and these choice oysters are now for sale, done or raw, ready to chew, at his restaurant. You can get them by the plate, dozen, hundred, barrel, dray load, wagon load or car load. Owing to the rush of business the serving of regular meals will be discontinued after this week, but special orders will be served at any hour of the day or night.
